Git • Express • Data Structures •
Algorithms • Python

ABOUT ME

Detail-oriented web developer with a passion for creating beautiful, user-friendly web applications. I've always been fascinated by technology and find fulfillment in being a part of it.

PROJECTS

2020 Story Squad

Makes reading and writing fun again for kids by fostering friendly competition.

Frontend Web Developer (React, Express, Node, Postgres)

- Tasked to make UI intuitive and visually organized
- Managed application state logic to guide user-flow
- Updating database to make it more semantically clear

<https://github.com/Lambda-School-Labs/story-squad-fe-c/>

2020 Covid-19 Tracker

Tracks and displays covid-19 cases for countries across the globe

Frontend Web Developer (React, Axios)

- Created the frontend using React
- Utilized a publicly available API that tracks covid-19 cases across the globe
- Styled the web application to make it visually appealing

2020 Spam tracker (in progress)

A platform where users can see, add, and comment on phone numbers belonging to spam bots.

Full Stack (React, Express, Node, MongoDB)

- Building the server to that will accept user requests

EDUCATION

2020 Lambda School

Full Stack Web Developer

2012 California State University, Fullerton

BA Psychology
